

## Alphabetical Listing of IADC Associate Members

The IADC Associate Members listed in this section are companies whose manufacturing, service, and supply capabilities make it possible to drill, complete, produce and service most of the world's oil and gas wells.

In addition to the names of key personnel, addresses, phone and fax numbers and Internet addresses, the listings indicate the companies' main lines of products and services. IADC

Associate Members are listed by product and service category in the Products & Services Cross Index.

Companies whose headquarters locations are printed in bold face are advertisers in the *2008 IADC Membership Directory*. Look for their advertisements elsewhere in the *Directory*. (The Advertisers Index at the back of this volume provides page numbers for all advertisements in the *Directory*.)

## International Forum of Energy Centres and Museums

The International Forum of Energy Centres and Museums was established to further public education about the global drilling and completion industry. IADC has a close association with

the IFECM, which was founded in 2006. Below is a listing of IFECM member institutions. For more information, check the IFECM website at [www.iadc.org/IFECM.htm](http://www.iadc.org/IFECM.htm).
