

IADC Global Rig Finder: Quick Guide to IADC Contractors & Rigs Worldwide

IADC contractors operate a wide variety of drilling and well-servicing units worldwide, both on land and offshore. Based on data supplied by IADC drilling contractors, the IADC Global Rig Finder provides the names of contractor firms grouped by operating theater. Contractors are listed by country and/

or by drilling-market region. After locating the contractors who operate the appropriate type of equipment in the desired market, details on key personnel, rig-fleet size, and contact information are shown in the alphabetical contractor listing.
